THE INCOMPARABLE "ESTATE OAK"

Estate Oaks are known as the best fire keeping stoves in this country.
It is now nearly seventeen years since this stove was placed on the
market and since then over half a million of them have been put into
use. THE ESTATE OAK WILL MAINTAIN an EVEN HEAT FROM
THE TIME IT IS SET UP IN THE FALL UNTIL IT IS TAKEN
DOWN IN THE SPRING by simply giving it a little attention twice
in twenty-four hours.

IT WILL HOLD FIRE FOR FIFTY HOURS WITH ONE CHARGE
OF FUEL, AND WILL GIVE THE SAME EVEN HEAT DAY AND
NIGHT WITH ORDINARY SOFT COAL AS CAN BE HAD FROM
THE USE OF ANTHRACITE COAL.

A FEW OF THE EXCLUSIVE FEATURES OF THE ESTATE OAK
PATENTED SCREW DRAFT REGISTERS
PATENTED STRENGTH SINGLE FIRE POT
PATENTED JOINTLESS ASH BOX
PATENTED ANTI-BUCKLING RING

We have sold in this city and vicinity over ten thousand of these heat-
ers during the past fifteen years, every one of which has been guaran-
teed, and none of which has been returned. We are certain of our
ability to please you with this celebrated heater and will give you a
positive guarantee with each one.

Estate Oak Air-Tight Radiator

The Estate Oak Air-Tight Radiator is a splendidly carved, gracefully
formed and finely modeled and mounted specimen of a square parlor
heating stove. It is practically an Estate Oak Stove placed within a
perforated envelope or jacket, as shown in the illustration. This is
also a guaranteed Heater and is one of the many patterns we carry in
the Estate line.

We carry a complete line of heaters ranging in price from \$7.00 to
\$50.00. If you haven't the money we can arrange satisfactory terms.
